2005 BILL

- 1 AN ACT *to amend* 218.21 (2m) (a); and *to create* 218.21 (2) (eg), 218.21 (2) (em)
2 and 218.21 (2) (er) of the statutes; **relating to:** the licensing of motor vehicle
3 salvage dealers.

Analysis by the Legislative Reference Bureau

Under current law, all motor vehicle salvage dealers must be licensed by the Department of Transportation (DOT). A motor vehicle salvage dealer is a person who purchases and resells motor vehicles for wrecking, processing, scrapping, recycling, or dismantling purposes or who conducts the business of wrecking, processing, scrapping, recycling, or dismantling motor vehicles or selling parts of those vehicles.

Current law also requires a person who owns or operates a point source of water pollution to obtain from the Department of Natural Resources (DNR) a permit to discharge storm water. Current law also requires a motor vehicle salvage dealer who recovers ozone-depleting refrigerants to obtain from DNR a permit for safe recovery of the refrigerants.

This bill requires every applicant for a new or renewed motor vehicle salvage dealer license to provide to DOT proof that a permit, if required by DNR, has been issued by DNR relating to storm water discharge and proof that a permit, if required by DNR, has been issued by DNR relating to refrigerant recovery. The bill also requires every applicant for a new or renewed motor vehicle salvage dealer license to provide a letter, signed by the county executive or county administrator in the county where the applicant's business is to be conducted, that states that the applicant's business complies with county ordinances relating to storm water

4 283.33, or a statement from the department of natural resources that the applicant

18 compliance with county ordinances relating to storm water discharge and
